

Michelle Y. Long
General Manager
Chevron Environmental Management Company

MYLong@chevron.com

Michelle Y. Long is General Manager, Strategy & Performance, for Chevron Environmental Management Company (CEMC). CEMC is a nearly \$1 billion organization charged with safely retiring operational assets and restoring their areas to productive use through responsible environmental stewardship. The business unit has a global reach, including operations in 48 US States and 21 Countries. Michelle leads cross-functional teams focused on strategy development, risk management, project design, performance management & the application of digital solutions to advance the execution of environmental services that span a global portfolio worth approximately \$2B in environmental reserves.

Long began her career with Texaco Refining and Marketing Inc. and has spent 35 years gaining experience in manufacturing, value chain optimization and technology development. During this time, she has held roles of increasing responsibility and led teams in our traditional and alternative fuels business. She has led teams in refining, lubricants manufacturing, business development and feedstock evaluation and had roles on multiple integration teams. One of her memorable roles was leading the team that laid the foundation for biomass feedstock supplies, currently executed by Chevron's Renewable Fuels Business.

For several years, Long has been active with many communities and national organizations. Her efforts have focused on S.T.E.M. related programs. She is a member of Association of Governing Boards, where she has led initiatives designed to support the transformation in higher education, in areas of governance, diversity and inclusion.

Ms. Long earned a Bachelor of Science in Chemistry from Pacific Lutheran University, where she is the current Chair, of Board of Regents. She is also Board Member of Girls Inc., and Chevron's Executive Sponsor at Prairie View A&M University. In her spare time, she enjoys cooking, and time with family.
